supergike wrote on Sun, 24 August 2008 19:50Well

Everything you created

like in DWC and AT4LANTIS

Well gike, you need to code it yourself ^^

W4rning wont give it to you, same like Darknes2 (i already checked both of them). Darknes2 would give you maybe some hints.

MackKinsey

EDIT:

Quote:What exactly do you want to save and load?

He wants to create such a command for everything he build, like blockers, laser fences.....

And Gike, your Dream is beeing a big Server, then u should always have opened ports, a strong computer (no labtop), really fast Internet, long Uptimes (best would be 24/7)
