I really hope you're trolling.

Do realize that my point is that they're the same exact weapon. Grenades and flamethrowers are NOT the same weapon. Sydney and a chemical trooper are NOT the same unit type.

Light infantry and light infantry are, uh... Light infantry. Same weapon, same stats, etc... Yet the gun does less damage. I'd normally not care, but seeing as how the Nod soldier probably stands out MORE than the GDI soldier, yeah...
