I had to ask some emergency questions (regarding ren skins and also Reborn) and was looking for you. But you were gone.

Anyway, I forgot what I was going to ask you lol

Haha, whenever you think of it, just find me and ask.

It's great to be back online, but really pissed off, I was offline because a lightning strike killey my modem, well it also kinda fucked my network part of my motherboard, so had to get a network card added, well the store that I took my PC to get fixed, also formatted my main hard drive which had all my games and programs installed.

Well, it also had about 100mbs of Game Maps skins/files that I had ready to link to the site, so lost all that, which really sucks, took a week or two to do all that.

Can easy get all the skins back and redo then, just sucks big time. :/
