I wanted to release something again. Here is 1 big pack of add-ons for the gdi buildings which would make them look partystyle!

Check out the video to see what this exactly is. Thanks to Mehide for recording the video ->
<http://www.youtube.com/watch?v=gzOjcHyt4NU>

All mct's have different nice ladies on them WITH music playing when you stand close to it. You should put your 'Music' volume to the highest IN renegade settings! If you want another music playing then simply rename a mp3 file to for example WF_music and paste into Data.

It is possible to play with it ONLINE

NEW Downloadlink ->
