I mean the reason why they had the other militants was because Nod was basically crumbling without Kane as their leader. It was for this reason that instead of the trained ground soldiers with the armor and the weapons they had in TS, they just had random guys from the underground in Yellow Zones.

It just didn't make sense to me that they all of a sudden became how they were in TS again. Didn't really sit right with me...

It might be because Kane's Wrath's campaign still technically started in TS, which is why Nod still had their armoured infantry.
