Sk8rRIMukSHADY-CNCUsigh... i should have stayed... but my head was splitting.. i couldnt stand it...

we had some good rounds previous to that...

i missed the shot you shown...

earlier in the previous round... i killed a havok and a deadeye with one shot... as a basic sniper.. i know a havok / sakura could do it... until 2 months ago i didn't know you could do that.. but i did it to two sakura's on k9's server.. and i got accused of cheating / hacking... but the other night was only the second...

on another note... np.. until ack and crimson cool off i seem to be akicked from n00nstories.. you can find me in renevo or unserv if ya wanna chat.. and i'm on ts quite a bit if ya get on there and wanna hook up for a game
Yes my deaths did go up by 2...

That shot by shady was a headshot thorough me and in to baker damm that was a good shot...

Would love to play that game again (without me having a 3 on 1)...
