So im guessing it will be disabled by default then? (since no won).

If we leave it open for a bit longer, yes will maybe win... It's quite clear that the difference between the "yes" and "no" is really minimal.

So because you believe it should be fixed, and since your a mod, you can just leave it open until the side you favor wins? Wow, biased much? thats pure bullshit.

You're missing the point. I'm not going to close anything as this isn't my poll and not my decision. What I mean is that if the difference is so close, it's not good to make a decision on a certain date. If he had said in advance: "poll will be open for x days", then that would have changed everything of course.
