The truth is, I was toying around with objects.ddb,

(I don't believe it's the scripts fault at all),

and suddenly the SP doesn't work, I don't believe I edited the 'Commando Start' Spawner...

PS

For some strange reason,

the first level, 'The Scorpion Hunters' works 100% fine, but EVERY other level doesn't.

Is there something special about that level, compared to all the other SP levels?

And how can I fix this problem;

what in the objects.ddb could be causing the problem?
