Could you release any of those previous models?

like the nod stuff,especially the mutated HON, that looks really cool. or the nice ref by madracks.

Also, I edited the MCT music and Imaggies to be more.... appropriate (sry, but i work with underage people). It actually looks pretty cool. The AGT MCT has a bunch of my C-130 mods pictures on it, and plays my FAV. CnC song, Hells March(2). The WF has a bunch of techicle pictures of controll panlles and stuff (I haven't added sound to it yet). Both the REF and PPO show picture frames with varius pictures on them (all of them are pictures from in-game (SP) except, for the PP, one famuos picture that I digitally made a custom frame for. Has no sound yet. Sry, but I removed the barr part, b/c its kinday cheasy with the lights. I will add the Barr TV mod to it, and edit that with my Custom PTs.

I will upload pictures once I finish with my work.

sounds cool, show us here when your done
