samous wrote on Thu, 18 September 2008 02:12: Could anyone Convert these files, they are original W3D files from ZH, but I would like them to replace the C-130 in Renegade. Most likely, you should just be able to delete the ZH bones, add Renegade Bones, and a WorldBox. If there are any skilled W3D modders out there for Renegade, here is a change. Thank You

=Samous

EDIT: oops, forgot the file. Here it is.

It's already been done, see Scud Storm.
