Goztow wrote on Thu, 18 September 2008 08:37Ermmm why does the "no" camp figure they won? It's 73/73...

Well, probably for the same reason they think they don't need arguments to make their points? Also, it appears that MCD or something at least tried to sabotage the poll by trying to get their members to all vote no. That does not help the poll in any way. People that are interested in renevelopment will get here by themselves, and thus know when they want or not want something.
