Do you think companies purposely make bugs and hide them in the game play for the players to find?! It was only recently that people started to notice that this problem existed... and Westwood died, what, 8 years ago?

no, ..you obviously don't understand, renegade was around for like a year before westwood died, they updated it all the time...i don't think it would take them over a year to realize that shooting stuff gives you more points than you should get and fix it in one of their monthly patches..
