Everybody knows when you open the infamous Renegade you get the Spinning wheel I want to make that Spinning Wheel my backround desktop. Can anybody just remove the menu options and leave only the E.V.A. spinning with the Yellow circly line next to it and the MOST IMPORTANT PART the Spinning Wheel. Me and Xylaquin were working on how to do it but aparently he doesn't know shit how to edit Renegades menu options. Well Xylaquin I made a topic, maybe Renegade ancient player/fans will be able to do it.
