I was raised the wrong way. Most people that listen to similar music as me all started with Zep. I started with Van Halen when I was around 10, so that in and of itself should speak volumes.

The Who never appealed to me. and I don't know why. However, Keith Moon is an excellent drummer, and I'd say he is quite a bit better than Bonham, although there are probably 4382190478932 internet threads comparing the two anyway.

What's weirder is that don't care for Zep, but I enjoy the 'Zep-clones' like Great White, and Whitesnake
