I will tell you this:

When we were developing D6, it was stupidly easy to connect the two universes with a rich plot and it all made sense. To me, there is no separation of the two.

The allies won RA1 and those events led into the rest of events as they unfolded, there was no RA2.

Firestorm was the perfect lead in to what should have been an entirely enrapturing plot for C&C Twilight.

Everything was there for the next saga, and it all went in the dustbin because they couldn't find a decent writer and didn't let Kucan direct.
