FerhagoActually your english is amazing. I would never have guessed you were from the netherlands.
Thnx for the compliment

FerhagoAs for your problem. It certainly is a an odd one. Never before have I heard of something like this happening.

Im no expert but it looks like you simply have a computer thats too outdated to run the game.

That my computer is too outdated I have heared before, but the specs are better then the mimum requerments, so that shouldn't be the problem.

Greetz, Cybertinus
