cheesesoda wrote on Wed, 29 October 2008 09:44 There are SEVERAL third parties. It just so happens that Americans are sheep, and they only seem to know how to vote for one of two corrupt parties.

Agreed most don't see the message of the 3rd party but mostly it is also to be blamed on the age-make up of the population.

In a few decades time, after the present day middle-aged and older population dies out/becomes insignificant, the current generally liberal younger population will be the majority. I think then that would be the time a 3rd party can have success.

IMO.
