I hate this forum... I just lost everything I had said by a connection interruption...

Just a quick reminder for everybody who hates Bush so much and thinks that he's to blame everything... HE. CAN'T. PASS. LEGISLATION. ON. HIS. OWN. Congress (House of Representatives AND the Senate) must agree upon and pass the legislation before it goes to the Executive Branch for the president to sign/veto. As far as I have heard, there hasn't been anything huge that Bush has had to veto that Congress has passed.

Who has the 3x the approval rating as the other? That's right, G.W. does. His approval rating around 30% is 3x the Congress' approval rating of 9%. While Bush may be fucking with our nation, Congress is obviously doing worse, and who are they controlled by, albeit slightly? The Democrats.

Oh, and let's not forget who agreed with Bush on the \$700 billion bailout. Kerry, Edwards, Obama, Clinton, McCain, and a sizable majority of Democrats. Less than 50% of Republicans in Congress voted for it.

Edit: Cabal, the Republican Congress didn't want Clinton to go after bin Laden. They thought it was a waste of time, then 9/11 hit, and they attacked Clinton for not going after him.
