Would there be any Skinners or Mappers here that would like to work on a mod, Code Name: Phoenix (<http://www.planetcnc.com/phx>)?

I already have a commando person and someone to bone the models, all I need is a skinner and a mapper.

If you're interested please contact me (pm or e-mail).

(If anyone in interested would like to see a run down of the story for this contact me.)

Thank you.
