2. I can code you a script if needed.

I mean can the script be used only on cinematics or something else, like a master sript it uses a txt as a script. By eg. crates i meant.. can in the "Test cinematic" script be written (eg. the ion storm crate can that script be written in a txt and attached to a crate)

i'm preety sure it's not understandable what i wrote above.. well i can't express myself sometimes
