djllaptop wrote on Tue, 04 November 2008 13:49 Maybe try taking some Allegra or Claritin to see if it might be an allergy to something in your home (dust, mold, pet, etc).

Also you can try Mucinex (with lots lots lots of water) to clear out any phlegm that might be loose in your system causing the coughing.

I know we dont have pets, or dust (my mom is the cleanest neat freak in the whole fucking world, you can eat off your floors and toilets) and mold, i doubt it we live in apartments and they are new and nothings been bad here they do yearly checks. as the rest ill give it a try why not
