pawkyfox wrote on Wed, 05 November 2008 21:11 Thought I will share lol...these are all my collections for Renegade that I have got over the years. Never really showed anyone so I thought I would share.

I have these so far:

- Renegade Prima Strategy guide
- Original Renegade boxed game
- UK release version (I think)
- 1 Havoc action figure (with Raptor assault rifle, Raveshaw Railgun, and our one and only pistol, and stand)
- 2 Whorcas
- 1 Stank
- 10 GDI soldiers
- 10 Nod soldiers

The boxes for the Havoc figure and the original box art for the game are awesome and fold out with some nice pictures and beautiful artwork.

When I finally had the money to buy this game on one cold frosty night, I would never have imagined that I would spend so much money on the game buying collectibles but THAT IS HOW GOOD this game is and how hard it is to just leave it alone! Probaly the best FPS ever freaking made.

I am still missing the Mammoth tank and the Flamer and some T-shirts lol...but I have my deadly fox eye out for them on the internets.

I uploaded my first ever YouTube video(!) of my collection:

And some kool pics!
