Subject: [SOLVED] Cheater in the n00bstories server

Long game joined in the middle...no Hon, AS lost minutes later - couldn't help it. But kept repairing stuff. Only Obby and Ref.

I then stole GDI APC first but then gave it to teammate after I jacked a Med.

Then this cheater blows up my Med just like that.

Endgame screen:

I will post in n00bstories forums too.

EDIT: Case solved. Complaint terminated.
