Infininti am faering and hopeing not that renalert only did this as a pablisity stunt
Renegade alert was suppos to come out today and it dint
why dont we have a reson from them why it was pospond

After trying to figure out what you said, I figured you are asking why no one has said why it was
delayed. Well, if you would have read every elses posts before spouting off at the keyboard....

bigejoe14I looked on the RenAlert boards. 2 maps messed up... shouldn't take to long with ACK
on the job. I can wait 1-2 more days.

You could also find everything you need to know about RenAlert here:
