Infinint

yes i did includ the sizes and spaceing of the objects in the picture
please read though every thing agean before replaying.

Please actually read my post before replying to it. I never said you didn't include the sizes and spacing of the objects in the picture. I said you didn't include the sizes of the objects in your little example (which is what we were refering to).

Infinint..|.....|2
1|.....|
..|.....|3

dont mind the spacer dots i need them there so the lines stay there

in this digram if you where standing on number 1 bolth 2 and 3 would look the same size, which is what i was thinking about when i wrote that.

Did you include sizes in there? No you didn't. You were wrong according to your little example there.
