Ok do you see those rocks over there? That is Kohl. You definitely should get rid of the sculpture maker... You won't need that at all. Since your special resource is Khol, you need to build a cosmetics building I think... Also you need to click on that and build a khol mine. Or whatever the khol collecting building is called. Cosmetics will be your luxury good to trade. If you want to make more bread, upgrade your wheat fields and your bakery. Also if you don't have any cedar you shouldn't have anyone working in the exchange as its only function is to build boats with cedar.
