2 questions,

1. Did you install Renegade following this guide:

<http://www.renegadeforums.com/index.php?t=msg&th=24533&start=0&rid=21525>(minus Renguard it's useless)

2. Do you have a Router or some sort of Firewall which could be blocking Renegade from accessing the internet?

PS. This should have been posted in the "Renegade Client" Subforum".
