Hi

I have a server running on brenbot and I wanted to know where to configure this message at

"Host: [BR] Settings for C&C_Walls_Flying.mix: Time Limit: 30, Mine Limit: 40, Vehicle Limit: 10. Donations are allowed after 0 minutes."

I wanted to take some of it out + We have all the time limits set to 0, I don't know where it got 30 from.

(yes I do have it set to 0 in the mapsettings.xml)
