There is an addon for C&C Generals coming, that could be the other C&C game. But I don't think we'll see a true C&C game again, EA will probably stick it on another RTS game.

To me C&C mean tiberian, tanks, refineries etc. Generals has nothing to do with the others and that's why it isn't a proper C&C game. They're using the C&C name because it stands for "Command & Conquer" meaning you command units but it has no real relation to the rest of the series.
