---

I Installed 3D Studio Max 8 and downloaded the W3D Exporter and importer for 3DS Max, the importer work but on the Exporter (on 3DS Max startup) i get this Error:

Loading DLLs

Maxw3d.dle failed to intitalize. Error code: 126.

I installed everything on the right folder etc, then i downloaded the required DirectX from RenHelp.net and unpacked everything in one folder, but i still have the Error. How do i install this DirectX version?
