You need those same scripts that you used in LE in your servers(FDS) Renegade Folder as well

Thx for reply!

I found the scrips.dll and scripts2.dll in mij renegade folder. Are these the dll's used by le?? And when they are they have to be the same as the one on the server I guess.

The script2 is on both the same but the script isnt. On in my renegade map is newer then the one on server. Cant see which version.
