Finally I got this finished. Click!

<http://deathlink.ut-ccr.de/>

This small site is nothing more than an index of my webspace. I uploaded all the stuff I made for Renegade there. Maps, wallpapers, artwork, models, reticles, replacements, sounds, small mods and so on. The best things I made in last three years.

If you want to host files or modify them read the index page first.

My special thanks goes to bananajoe2k4 who helped me a lot with this page.

Have fun^^
