ok, a minimum of one of us is very confused. Let me rephrase my question.

Here's what you said to me, word for word.

You hate state religions, so why is it a good reason to focus on keeping Christians in office that are undoubtably going to keep religion in government?

My question was: why/how do you think I'm doing that? This is all in response to my opinion that taking somebody's religion into account when choosing who to vote for is entirely valid.
