again FUCK EA.

Agreed, if the original Westwood team, or at least part of them came back, wouldn't you want to see them work on the Multiplayer and making it like it was supposed to be, with the G.D.I. Communications building, and the N.O.D. Shrine Of N.O.D.. It was originally planned to be that way, the G.D.I. Communications building was supposed to be there for the Ion Cannon Beacon it is destroyed no more beacons can be bought same for the Shrine Of N.O.D. and the Nuclear beacon if you look at the maps you can notice that some parts of them like on Under they have space in the bases for extra buildings like that.
