either a Engineer/Demolition Guy, or a Stealth/Sneaky Scout guy.

I found as a Nod Stealth Trooper, I had much fun sneaking around and disrupting stuff, and scouting.

a shame that those guys don't get any explosives

the stealthier, with a sniper rifle - my dream character

when I play the NOD Stealthier, my number 9 slot(where the explosives are) has some wierd device in it, and I haven't figured out what it is used for.

any clue what it is, and how to use it?
