YazooGang wrote on Fri, 12 December 2008 14:26but it looked awesome.

oh well, if he had that version and saw a pic of the current version, we would want this one too, we all want everything lol

true, although there are big differences. The old renegade had like 500 polys max for a gun (sometimes even less)

But what the old renegade had was a better light system. Only I see less alpha blending and such.

It is just as you say Yazoo we probably like the old one because it is unkown and indeed most likely if the current renegade was the beta it would have been the same/
