Sir Phoenixbrent3000FerhagoWhat is everyones beef with sole survivor? I thought the game was super fun.

I have played it. I have played it until the servers all died

thank you some one other than me here thinks it is a cool game it may have poor graphics but it has good game play.

who here takes a game by its graphics and not by its game play i take it for the fun

Go back up and read the posts this time, no one said anything about the graphics.

i know i am just saying
