bigwig992Naw. Their making another one, I think. We're making Vengeance. There is a beta out, but that's team only . There is a small demo level though, that includes acouple tanks and the V3. Once our site gets back up (if it ever does) you can get it there. <http://www.drireign.com>.

Yeah...still working on it.

do you have the file from <http://www.drireign.com>

if you do can you send me it
