The !c4 command isn't continuous. It shows the mine limit at a certain moment and you cannot press it again to get an update before the message disappears.

For "k" or "j": if you want to have a continuous view of it, you need to hold it all the time, hence you cannot play.

It's not the fact you can see the mine limit and the building health in the hud that is unfair, it's the fact you can see it at any time and immediately notice changes the moment they happen.

Let me put it the other way: if I told you I removed your entire radar from the hud to the screen you get when pressing 'j', wouldn't you consider it a disadvantage? If so, then I think I proved my point.
