Nero wrote on Wed, 07 January 2009 14:15: Guess what i'm gonna build next vacation... A remote controlled Stealth Tank, about the same size as that Chameleon, maybe a bit bigger. Just don't include stealth feature. You'll lose it all the time.

It's the same reason I can never find my goddamn stealth suit. Put it somewhere one day, turned my back for 2 seconds and then it was just not there. :[
