Lone0001 wrote on Sat, 10 January 2009 13:47Just fyi if you guys haven't noticed yet the original download link is working again, I suggest using it, I had some problems with the 2nd one I don't know about anyone else but I did.Before I proceed, was this problem just with downloading, or something with the version they have? I just downloaded the x64 version, and basically maxed out my connection speed (downloaded at 700Kb/s), and it took about an hour and a half or so. Everything seemes fine so far, but before I burn it and try, it was just with the downloading itself, and not the version they have, right?
