cheesesoda wrote on Sun, 11 January 2009 19:10 While I still do fully believe that it is just a flaw, I do wonder if Microsoft doesn't actually profit from it.

Sure, the cost of the shipping, the repair, and the 1 month free subscription would make you think that they actually lose money, but the money maker is actually in the free subscription. By offering one month free, they can entice new gamers into subscribing, which could ultimately result in a profit for Microsoft.

Thats thinking pretty far ahead
