- I have downloaded something which is packed in some kind of .RAR or .ZIP file, but how do I extract the files out of it so I can use them in Renegade?

Get winrar for free to extract the files. Download winrar here.

<http://www.rarsoft.com/rar/wrar380.exe>

After you have installed winrar, simply RIGHT-click on the downloaded .RAR or .ZIP and select 'unpack files' then select any directory to extract the files to.
