The old release topics from the mod forum have now all been moved to the mod release forum. Well, that is: all the ones that were in the first 80 pages of the mod forum as we didn't go back further. Thanks to Di3HardNL, Error, SSnipe, Cabal8616 and all the others (sorry if I forgot your names) that have helped me with this giant job . Wouldn't have been possible without you guys!

If you'd still find some release topics in the mod forum, then use the report function .
