The mod is not out yet but we do have a map you can play. It is the Vehicle Capture the Flag gametype with all Unreal assets (no Renegade X assets) but it is an Unreal remake of Hourglass.

With UT3 installed, extract the files to "My Documents\My Games\Unreal Tournament 3\UTGame\Published\CookedPC\CustomMaps" and it will show up in your map list under the VCTF gametype.

Or in Vista I think that's just "Documents" without the "My".

If the "CustomMaps" folder doesn't exist inside "CookedPC" then create it.
