I don't mind the lack of overall team play, as there are still some people who use it. What really annoys me are these people:

"REPAIR THE WF" *buys a sniper* *Wf is destroyed* "YOU GUYS ARE WORTHLESS"
"This team sucks!"

OMG, which reminds me of this guy I was playing with on City flying.

The game just started and we all went out into the field to attack/defend the harvesters. After like 30 seconds to a min, I came back to base to see two artilleries rolling out. I assumed they got donations to get them out earlier. Well, about 3 min after, another person starts saying "Lets do an early artillery rush!" Obviously oblivious to the rush that already took place. He kept going on and on about how people should buy and artillery. Finally, I join up with him and 2 other artilleries and just as we are about to leave the base, GDI starts to attack.

Then the guy says "I told you we should of did an artillery rush, now its too late and wont work!" That's when I said "Actually, this is the second artillery rush. Earlier in the game a few artilleries went over the bridge."

That's when he tells me "stfu noob wtf are you talking about." Then I said "I saw two artilleries leave the base like 30 seconds into the game." Then he says "NO YOU DIDN'T." So I say "Ok... I'm lying" (using sarcasm) and he is like "NO SHIT!" and I was all "I was being sarcastic."

Then he didn't say anything else.

Don't you just love those people?
