Sir PhoenixxYanoJust look at the place idiot. You can't understand sarcasm can you?

Sarcasm? Posting a single URL with no accompanying text, is very ambiguous, and up to our interpretation. You made no indication rather or not you were telling him to use google to search for something, or to poke fun at their website design.

We all have brains, use it.... If you don't understand it, just ignore it and move on. (ambiguous? Learn to spell)
