shakes cane Back in my day, we had to know HTML in and out...in notepad! Now y'got yer confangled PHP and yer lazy Dreamweaver...Why, back in my day, we'd have killed for a compiler...*fades off*

Nah, actually I feel the same way as you do, Apache.

You can be a help knowing just HTML though, like you said, you still have to code a basic HTML template for PHP to function properly, and surprisingly, I've been asked to do this for a lot of people who know PHP.
