DrasticDRWell I don't know about now. But earlier it was bad, some guy called "jimbo1335" wouldn't snipe. He wanted to do "Rocket sniping."

So I did a little trick with him. I said I will trade a Mammoth Tank for a Stealth Tank. He fell for it 3 times. And banned.

I guess remote assistance, remote admin or whatever it was wasn't enabled. As I couldn't kick him out.

It should be on. I will be home in about 1 hour. He just made it to my "NEW" perm IP ban list.

Thanks.
