OMG andr3w282's slaughters us all /me dies

I forgot about my desktop I'll go ahead and post the specs of it:

Processor: AMD Athlon 3100 2.2Ghz

RAM: 1.5GB

Hard Drive: 160GB

Video Card: Nvidia 5550 512MB

Operating System: Windows XP Home Edition 32bit

I got that thing maybe 4-4.5 years ago(maybe only 3-3.5) it's still running pretty well, and that's about 3 years(I think) without a windows reinstall

EDIT:

@ Saberhawk: What's the model number of that one? I assume you bought that recently?
